

Tandon Solvents & Chemicals

Company Profile

Tandon Group has a background of generations in Organic Chemicals Business. The group has a reputation of its own in business circles, may it be Suppliers or buyers in India, Africa, Asia, U.S.A, Europe, Middle East or China etc. The Business of Company has grown with manifolds in last few years & has ranked itself in the league of pre-eminent Manufacturers and suppliers of Solvents & Glycols based in India; The Group has added new manufacturing facilities with state of art infrastructure which further more has led to a status of a commendable player in the chemicals dominion. We have sustained the quality benchmark fastened with our name with ISO 9001-2008 Certification & shall continue to deliver chemicals par excellence in the upcoming years.

Tandon Group of Companies has been in to business of Industrial Chemicals for more than last two decades and at present comprises of the following two entities:

1. Tandon Solvents & Chemicals
2. S.S. Enterprises

Management Team

Mr. Kishan Kishore Tandon

Chairman of the group has an experience of over 40 years in Chemicals Business. Under his leadership the group has taken a big leap over the years and is on the verge of further expansion in view of a respectable position in the business circle.

Mr. Gaurav Tandon

C.E.O of the Company is a young & Dynamic Technocrat having a vision to excel under whose leadership the Group has added many new products & explored many new markets across the globe multiplying the company's business with manifolds.

Detail of Companies

Tandon Solvents & Chemicals established in 1995, having its office at 607, Ring Road Mall, Rohini, New Delhi (India) & Unit at Barhi Industrial Estate, Haryana to process & produce Glycols & Composite Solvents. The Company possesses one of the most modern Plant & Machinery with all safety measurements and is totally environment friendly with a present production capacity of 7500 Metric Tons per annum & is already under further capacity expansion taking the total production capacity to 14500 MT per annum. The Company follows strict quality measures & has ISO 9001-2008 Certification for its quality standards. The Company has a large import & export market apart from vast dealer network across the country with high volumes of sales.

S.S. Enterprises established in 2008, having its unit at HSIIDC, Barhi Industrial Estate, Haryana (India), has one of the most efficient Manufacturing Plant & Machinery with production capacity of about 7500 MT/ annum to process solvents & glycols. The Company products are considered to be most efficient and performable & are widely accepted in the market(s).

Quality & Certification

Our sourced range of chemicals and solvents also include Industrial Thinners, Glycols, Chemicals and Plasticizers. The vendors from whom we procure these Industrial solvents ensure that industry standards are followed in the formulation. We offer to clients are appreciated for accurate composition, precise pH value, purity, and high shelf life.

We lay huge stress on accurate composition and purity which leads to optimum reliability. Raw material for our diverse manufacturing tasks of various products are procured from a pool of huge vendors who are well aware of our quality commitment. We ensure to thoroughly check their background before getting into the actual business procedures.

Products Range

Offering you a complete choice of products which include Industrial Chemicals such as Industrial Thinners, Industrial Solvents and Basic Chemicals.

Our Industrial Chemicals are well-famed for being admirably efficacious & extremely competitively priced. Our Products have an array of application in chemical related industries. Highest purity standards and nearly zero moisture are few key attributes of our chemicals. We are undoubtedly among remarkable Chemicals Manufacturers and suppliers from India. Please find our major product segment below.

Industrial Solvents / Composite Solvents

Butyl Acetate / Propylene Glycol Methyl Ether Acetate Mix

(Excellent Retarder for Paints & Thinners)
Packing : 200 Kg/ HDPE or M.S Drums

N-Butyl Acetate

Packing : 180 Kg/ HDPE or M.S Drums

Dichloro Propane

Packing : 225 Kg/ HDPE or M.S Drums

IPA

Packing : 160 Kg/ HDPE

N-Butanol

Packing : 165 Kg/ HDPE or M.S Drums

2-Ethyl Hexanol

Packing : 170 Kg/ HDPE or M.S Drums

Mix Ketones

Packing : 180 Kg/ HDPE or M.S Drums

Mix -Xylene

Packing : 172 Kg./ M.S Drums

Adipic Acid

Packing : 1000 Kg. Jumbo Bags/ 25 Kg. Bags

Phthalic Anhydride

Packing : 25 Kg Bags

n-Methyl Pyrrolidone

Packing : 210Kg

M.D.C

Packing : 250 Kg/ HDPE or M.S Drums

Cellosolve

Packing : 190 Kg/ HDPE or M.S Drums

Cellosolve Acetate

Packing : 195 Kg/ HDPE or M.S Drums

E. Cellosolve / DA mix

Packing : 200 Kg/ HDPE or M.S Drums

B. Cellosolve / DA mix

Packing : 200 Kg/ HDPE or M.S Drums

Glycols

MEG

Packing : 230 Kg/ HDPE or M.S Drums

DEG

Packing : 230 Kg/ HDPE or M.S Drums

MEG/DEG Mix

Packing : 230 Kg/ HDPE or M.S Drums

DEG/TEG Mix

Packing : 230 Kg/ HDPE or M.S Drums

Propylene Glycol

Packing : 215 Kg/ HDPE or M.S Drums

Di-Propylene Glycol

Packing : 215 Kg/ HDPE or M.S Drums

Thinners & Reducers

General Purpose Thinners:

This is a perfect blend of solvents & has excellent solvency with almost all kinds of resins like Nitrocellulose, Polyurethane, Alkyd, Acrylic, Synthetic, polyester, epoxy etc. It gives significant flatness & tightness to paints / coatings without any pinholes, fish eye & craters.

Color (Hazen) : 10
Active Solvents : 40% to 50%
Density : 0.800 to 0.870
Packing : 200 Ltr/ M.S Drums

N.C Thinners

This is an excellent thinner for Nitrocellulose & Melamine based paints & coatings. Our thinners have blend of best esters with very pleasant odor & gives perfect finishing to the coatings.

Color (Hazen) : 10
Active Solvents : 40% to 50%
Density : 0.800 to 0.870
Packing : 200 Ltr/ M.S Drums

Reducers

Our ink reducers are completely moisture free & are of great virulence & funk & can fetch up the upwards bug & also replace it.

Color (Hazen) : 10
Active Solvents : 50% to 70%
Density : 0.825 to 0.950
Packing : 200 Ltr/ M.S Drums

Plasticizers

A. Phthalates Plasticizer

Dimethyl Phthalate

Packing : 230 Kg/ HDPE or M.S Drums

Diisodecyl Phthalate

Packing : 200 Kg/ HDPE or M.S Drums

Diisononyl Phthalate

Packing : 200 Kg/ HDPE or M.S Drums

Di Octyl Phthalate

Packing : 200 Kg/ HDPE or M.S Drums

Di-Butyl Phthalate

Packing : 200 Kg/ HDPE or M.S Drums

B. Non-Phthalates Plasticizer

Di Octyl Adipate

Packing : 200 Kg/ HDPE or M.S Drums

Di-Butyl Adipate

Packing : 200 Kg/ HDPE or M.S Drums

Polymeric Plasticizer (VOC Free)

(For water borne coatings, Adhesives, Sealants etc)

Packing : 200Kg/ HDPE or M.S Drums

Manufacturing

We have equipped ourselves with a completely modernized manufacturing unit helping us in production of flawless range known for its quality. The entire manufacturing is carried out as per the norms prescribed for international standard. Apart from this, the other units engaged in helping us to carry out our business activities and become a formidable entity in market include quality monitoring, sales and marketing, admin and many more.

We make available to our clients a wide array of Industrial Solvents. Comprising both organic and inorganic types, these solvents are available in the purest form. We make use of quality ingredients for formulating these compounds in precise composition. These solvents comply with the industry standards and are packaged with adeptness.

Our name is renowned in International market owing to:

- Quality assured products
- Top grade packaging
- Customized products
- Delivery in specific time frame
- Competent team
- Robust infrastructure

Research & Development

We have quality range of Solvents and Chemicals and other solvents are highly appreciated for their purest grade & efficiency that are in accordance to the international quality standards. We supply different types of Fine Chemicals & Solvents, which are highly pure. The clients of our company appreciate these Fine Chemicals & Solvents, as these are priced according to industry standard and have precise composition.

Following international standards our products are matchless and extensively useful. As they are formed using high quality raw material, they provide best functionality. The stringent quality checks through which they are processed at each stage of manufacturing render outstanding results.

The entire processes and research are excellently monitored and ensure our clients the best quality final range. We lay huge stress on accurate composition and purity which leads to optimum reliability.

Storage & Transportation

We are engaged in offering Solvents that are known for their versatility and solubility in non-polar mediums. These are successfully catering to the requirements of various industries such as pigment, chemical, textile and leather industry.

Establishing a reputed and trustworthy place in the National and International market has been possible due to the well established and technologically developed infrastructure. It encompasses varied units like production, logistics, quality inspecting, warehousing, and many more for streamline functioning. The highly facilitated departments with latest machinery and equipment gear up the production speed that lead to extensive growth of the company.
